The Oregon Standoff

By: Giovanni Del Carlo

The Oregon standoff is about the arrest of two farmers and are in prison for five years. Former residence have been saying that the area has not experienced any bullets yet. The reason the area is being held down is because of the arrest of two farmers. They were convicted of arson. They were doing a controlled fire on their property and it spread on accident. The two farmers burned down a few acres of federal properties. Nobody has been arrested for burning down a few acres of land on accident.

The building that they are holding down is a federal habitat for wildlife. A former student from a high school said that she wants to feel safe again and wants them to leave the habitat. The people won't leave till the two farmers are free, but the government won't let them free and are refusing to shoot at the federal habitat. This has been the first standoff for people to be set free.

The cops are telling the people that if they don't come out then they will be going to jail with them. The two farmers are sentenced for five years in prison and the people that are holding down the area aren't coming out until they are freed.

Serving Up West Central Volleyball January 11 - 15 2016

By: Halee and Megan

West Central's Middle School 7th grade volleyball team had a big week this week. We had three games this week, one on Monday, Wednesday, and Thursday. We played great this whole week. Here are some of our stats and scores for these three games.

Monday's game was played at home against Abingdon/Avon. We started off in serve receive. This was our very first game ever played this season and we won both matches. Mady Reed was our first server of the night. We won both matches just by a great game played.. The final score of the first match was 25-27 and we won that match. The second match we won 25-11. We easily won the second match, the first match was harder to win.

Wednesday's game was played away against Nauvoo. We beat them in the first match 30-28. The first match was very stressful and everyone was on edge. It was a tough match but we stuck it out and won. The second match we won 25-18. This match was not as difficult to play. It always seems like when we play the first game it is close and the second game is not so close and we all worked together to end it quickly. There was also a third match just for fun, it was a game for the people didn't play the first or second matches and unfortunately we lost that one.

Thursday's game was played at home against Bushnell Prairie City. We started off in serve receive. The first time Bushnell served it we got a bump, set, spike and managed to score right off the bat. Halee was our first server of the game. Throughout the whole game Sadie and Mady had great sets, and great tips over the net where the other team could not get it back over. We won both games. As always the first match was a really close one and the second match was easily won.

West Central definitely had a great week this week. They all worked very hard. We all worked together to get all of our wins and to play our best games. Some players might not of got to play but their support to our teammates goes a long way. Our Volleyball team has a few more home games so come support your Middle school Volleyball team.

Star Wars Battlefront: Review on Xbox One

By: Kaitlyn Waugh

The new highly anticipated Star Wars Battlefront game came out on November 17, 2015, and now I am going to tell you all about its amazing features. I played the game on an Xbox One, and I personally think that the game is AMAZING!!!! I think that you guys will enjoy it too if you get the chance to play it.

Characters, Places, and Powers:

First, In the game you can go to four different planets: Endor, which is the forest planet, Hoth, which is the planet covered in ice and snow, Sullust, which is the lava planet, and Tatooine, which is the desert planet. I personally think that the best planet is Sullust because the lava is so cool.

There are many different characters you can be. If you choose to do a hero battle, you get to be one of the main characters, and if you choose to do something like survival mode, you have to be a regular rebel soldier or stormtrooper. The main characters you can be are: Imperial Forces- Han Solo, Luke Skywalker, and Princess Leia. Galactic Empire- Darth Vader, Lord Palpatine, and Boba Fett. My favorite character is Boba Fett because he has really cool weapons and special powers. I will talk more about powers next.

With all the characters, each one has a special power or two they can activate.

Han Solo- has a shoulder charge, which is only if you are up close to the enemy you can shove them and knock them down. He also has a rapid-fire power where you can fire his gun, and you won't have to wait between shots, and a lucky shot where you can shoot one time from his gun and it will create an explosion.

Luke Skywalker- has a force push like Han Solo, and he also has a saber rush, where he can charge forward and mow down a few storm troopers, and a heavy strike which enables him to turn around and can hit any soldiers surrounding him.

Princess Leia- can call for a supply drop, a bunch of powerups will be dropped into the area. She has a shield also, and she has a trooper bane that enables one shot from her gun to explode and kill a few stormtroopers.

Darth Vader- can force choke an enemy, and he can throw his lightsaber. Also, he can deflect any shots with his lightsaber.

Lord Palpatine- can enable a force dash, where he can jolt forward and knock down many enemies. Also, he can enable chain lighting, which gives him the ability to powerfully shock a bunch of enemies if they are close to him. Like Princess Leia, Lord Palpatine can also call for a supply drop.

Boba Fett- can enable a wrist rocket and a grenade can be thrown and creates a huge explosion when it hits something. Furthermore, he has an awesome flamethrower that can immediately annihilate many enemies, and he has an incredibly cool jetpack that he can use to fly around and spot enemies.

What You Can Do in the Game:

Secondly, There are many things you can do on the game. You can play a mission, or practice a mission, play a hero battle, or you can play a survival mode. The missions are just short little things you have to do.

There are missions that you can fly as an A-Wing or an X-Wing, and you can do a practice mission on the planet Endor where you can race through a forest on a speeder bike. My favorite mission is where you can be an AT-ST and you have to protect an AT-AT. Then, you can play on survival mode, and that is where you have to survive 15 levels of enemies, and on every 3 levels you have to protect a drop pod. On this you can only be a rebel soldier or stormtrooper. You can also play a hero battle. A hero battle is where you can play as a main character, and you have to kill the other person's team members. When you kill them you get to pick up a token. Each token that comes from killing your enemies is worth two points. Each token that comes from your team members, if you collect it, takes 2 points from the other team. The first player to 100 points wins!

Extra Features in the Game:

Furthermore, there are some extras in the game I would like to tell you about. If you chose to do survival mode and are just a regular rebel or stormtrooper you can customize your character. You can choose skin tone, hairstyle, gender, and you can buy different clothing styles with coins. You can also add modifications to certain weapons. Anyway, let me tell you about the graphics in this game. They are absolutely AMAZING!!!! The graphics make it look like you are sitting on the set of one of the Star Wars movies. Also, the detail is PHENOMENAL!!!! If you chose to do a hero battle and do it on the planet Sullust you can go into a room full of control panels. It is so cool. One extra feature I want to talk about is the diorama. There is a diorama that you access, and you get to unlock these models in it. There is one of an AT-AT, an AT-ST, and many more.

Conclusion:

In conclusion, I hope that you guys get a chance to play this truly awesome game. It is the best. I haven't experienced any glitches with the game or any bugs, and the gameplay is fantastic. So, I really hope you get to play this.

PS4 vs Xbox

one

By: Carter and Payne

What you can do on the Xbox one and PS4. On the Xbox one you can answer messages without closing out your game. On PS4 you can do the same thing but you can't see the game it's still running in the background. It just depends which one you like better. The PS4 home screen you have to go to a whole different screen to look at your things. On Xbox 1 you can look at your messages while having your game going on in the background and on PS4 you can't do that.

In just 2 years, over 30 million PS4 consoles have been sold around the world. It's estimated 15 million Xbox One consoles have been sold since it was launched a week after the PS4 in 2013. PS4 remotes cost fifty dollars and the console comes with one remote. Xbox one remotes also cost fifty dollars and one comes with the console just like PS4. For Playstation it costs Fifty dollars a year to play online. For Xbox Live it cost sixty dollars a year to play online. For PS4 907 games have been made but for the Xbox 1 only 499 games have been made for it. When the Xbox 1 came out the price for the Xbox 1 was \$500 the lowest price when it came out was \$348. The price for the Xbox 1 now is 349, \$407 if you get the bundle for it. The highest price for the PS4 is three hundred and ninety nine dollars now it's around three hundred dollars and three hundred fifty for a bundle.

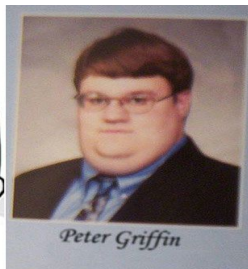

The PS4 has a 4 and a half star rating and is beating Xbox 1 by a half star rating. Some people like the PS4 and some people think the Xbox 1 is nice but the positive side some people say to the Xbox 1 is that the Xbox 1 looks a lot cleaner than the PS4 setup. People that play Xbox 1 and PS4 say everything is there and is quick to get to for Xbox One. Some of the comments made by real life people say that play Xbox One and PS4 say the PS4 would be better with the Xbox 1 homescreen setup. There are not a lot to say about the graphics other than the fact that the PS4 is brighter when you're playing a game. People like the PS4 because they can see stuff a lot better. Neither one is better than each other it depends what you think is better.

Animated Look Alikes

By: Carter and Payne

There are a lot of people in real life that look like video game characters, let's take a look at this random guy who looks like Trevor off of GTA V. There is this guy in a yearbook picture who looks like Peter Griffin off of Family Guy. Then Taylor swift looks like a girl off of FALLOUT 4. There are a lot of people who look like animated characters from movies, TV shows, and video games
