#### **Independent Auditor's Report**

To the Board of Education West Central Community Unit School District No. 235 Biggsville, Illinois

## **Report on the Financial Statements**

We have audited the accompanying financial statements of West Central Community Unit School District No. 235, Illinois, (the "District") which comprise the Statement of Assets and Liabilities Arising from Cash Transactions as of June 30, 2021, and the related Statement of Revenues Received, Expenditures Disbursed, Other Sources (Uses) and Changes in Fund Balance, the Statement of Revenues Received, and the Statement of Expenditures Disbursed - Budget to Actual for the year then ended and the related notes to the financial statements.

## Management Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Illinois State Board of Education. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to the financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by West Central Community Unit School District No. 235, Illinois, on the basis of the financial reporting provisions of the Illinois State Board of Education, which is a basis of accounting other than accounting principles generally accepted in the United States, to meet the requirements of the Illinois State Board of Education. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States, although not reasonably determinable, are presumed to be material.

## Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States, the financial position of West Central Community Unit School District No. 235, Illinois, as of June 30, 2021, and the respective changes in financial position for the year then ended.

## Basis for Qualified Opinion on Regulatory Basis of Accounting

We were unable to obtain sufficient appropriate audit evidence about the carrying amount of West Central Community Unit School District No. 235, Illinois' capital assets and related investment in general fixed assets on the regulatory basis as of June 30, 2021, because management has not maintained detailed records to support the historical costs. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

## Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the possible effects of the matter described in the "Basis for Qualified Opinion on Regulatory Basis of Accounting" paragraph, the financial statements referred to above present fairly, in all material respects, the regulatory basis financial position of West Central Community Unit School District No. 235, Illinois, as of June 30, 2021, and the respective changes in regulatory basis financial position, and budgetary results for the year then ended in accordance with the basis of accounting prescribed by the Illinois State Board of Education, as described in Note 1.

## Change in Accounting Principle

As discussed in Note 1 to the financial statements, the District adopted new accounting guidance GASB Statement No. 84 Fiduciary Activities. Our opinions are not modified with respect to this matter.

### **Other Matters**

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements. The introductory section and other information are presented for purposes of additional analysis and are not a required part of the financial statements.

The CARES, CRSSA, ARP Schedule is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the CARES, CRSSA, ARP Schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

The introductory and other information, except for the schedule listed as CARES, CRRSA, ARP Schedule, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated October 13, 2021, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

#### PART D - EXPLANATION OF ACCOUNTING PRACTICES FOR LATE MANDATED CATEGORICAL PAYMENTS

(For School Districts who report on an Accrual/Modified Accrual Accounting Basis only)

School districts that report on the accrual/modified accrual basis of accounting must identify where late mandated categorical payments (Acct Codes 3100, 3120, 3500, 3510, 3950) are recorded. Depending on the accounting procedure these amounts will be used to adjust the Direct Receipts/Revenues in calculation 1 and 2 of the Financial Profile Score.

In FY2021, identify those late payments recorded as Intergovermental Receivables, Other Recievables, or Deferred Revenue & Other Current Liabilities or Direct Receipts/Revenue.

Payments should only be listed once.

### Note 1 Summary of Significant Accounting Policies

The Board of Education (Board), a seven-member group, is the level of government which has the governing responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the West Central Community Unit School District No. 235 (the "District"). The District receives funding from local, state and federal sources and must comply with the requirements established by these funding source entities. However, the District is not included in any other governmental "reporting entity" as to result in the District being considered a component unit of the entity since Board members are elected by the public and have decision making authority, the power to designate management, and the responsibility to significantly influence operations and primary accountability for fiscal matters.

The District has developed criteria to determine whether outside agencies with activities which benefit the citizens of the District, including joint agreements which serve pupils from numerous districts, should be included within its financial reporting entity. The criteria include, but are not limited to, whether the District exercises oversight responsibility (which includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters), scope of public service, and special financing relationships.

#### **Joint Venture**

The District is a member of the Delabar Vocational Education System (Vocational System). Members pay an annual fee based on the level of transit funding from Career and Technical Education Improvement Grants. Members of the joint agreement receive state and federal funding for vocational programs. An audit report of Delabar Vocational Education System may be obtained from them at 105 North E Street, Monmouth, Illinois 61462.

The District is a member of the West Central Illinois Special Education Cooperative (Cooperative). This Cooperative serving Fulton, Hancock, Henderson, McDonough, and Schuyler counties provides staff for special education students. The Cooperative shares in the cost of teachers, physical therapists, psychologists, speech therapists and other staff, as needed, based on a percentage of students served. The District does not have an equity interest in the joint agreement and therefore the Cooperative would not cause a financial benefit or burden to the District's financial operations. The Cooperative is separately audited and is not included in these financial statements. Financial information may be obtained directly from their office at 130 S. Lafayette, Suite 201, Macomb, Illinois 61455.

The District paid \$0 and \$475,350 to the Vocational System and Cooperative, respectively, for the fiscal year ended June 30, 2021. The District is not aware of any entity which would exercise such oversight as to result in the District being considered a component unit of the entity.

The District is considered to be a primary government since it is legally separate and financially independent. This report includes all of the funds and account groups of the District. It includes all activities considered to be part (controlled by or dependent on) the District as set forth under the above criteria.

## Note 1 Summary of Significant Accounting Policies (continued)

### **Basis of Presentation - Fund Accounting**

These financial statements comply with the regulatory reporting basis prescribed by the Illinois State Board of Education as reported on ISBE form 50-35. The accounts of the District are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets and liabilities arising from cash transactions, fund balance, revenue received, and expenditures paid. The District maintains individual funds required by the State of Illinois. These funds are presented on the regulatory basis as required for reports filed with the Illinois State Board of Education. District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following funds and account groups are used by the District:

**Educational Fund** - This fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

**Operations and Maintenance Fund** - This fund is also a general operating fund used to account for costs of maintaining school buildings.

**Debt Services Fund** - This fund is a debt retirement fund. Resources of this fund are used to retire principal and interest maturities of outstanding bond obligations.

**Transportation Fund** - This fund is a special revenue fund used to account for the costs of transporting pupils to and from school and school activities.

**Municipal/Retirement/Social Security Fund** - This fund is a special revenue fund used to pay the District's share of municipal retirement benefits for covered employees. The District's share of social security and Medicare only is also paid from this fund if a separate tax is levied for that purpose.

**Capital Projects Fund** - Proceeds of construction bond issues and the capital improvement tax levy are accounted for in this capital projects fund.

Tort Fund - Proceeds of the Insurance tax levy is accounted for in this fund.

**Fire Prevention and Safety Fund** - Proceeds of fire prevention and safety bond issues and tax levy are accounted for in this capital projects fund.

**Working Cash Fund** - Resources of this fund are held by the District to be used for temporary interfund loans to any fund of the District for which taxes are levied.

**Agency Funds** - Custodial accounts for the assets held by the District where the District has no administrative involvement with these funds rather the District is responsible for safeguarding these assets. The District's responsibility for these funds is custodial in nature.

## Note 1 Summary of Significant Accounting Policies (continued)

#### **Account Groups:**

**General Fixed Asset Account Group** - This group is used to account for general fixed assets acquired for general governmental purposes.

**General Long-Term Debt Account Group** - This group is used to account for the outstanding balances of general long-term obligations

Account groups are not "funds". They are concerned only with the measurement of financial position. They are not involved with the measurement of results of operations.

### **Measurement Focus and Basis of Accounting**

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The District maintains its accounting records for all funds and account groups on the regulatory basis, and specifically the modified cash basis as described in the "Illinois Program Accounting Manual for Local School Systems". Accordingly, revenue is recorded when cash is received, and expenditures are recorded when checks are issued. Only assets representing a right to receive cash arising from a previous payment of cash are recorded as assets of a fund. In the same manner, only liabilities resulting from previous cash transactions (other than proceeds from a bond issue) are recorded as liabilities of a particular fund.

These regulatory basis financial statements omit recognition of receivables and payables and other accrued and deferred items that do arise from previous cash transactions. Unpaid teacher contracts for services rendered during the school year for teachers on a twelve month pay schedule are recorded as expenditures in the fiscal year in which checks are written.

#### **New Accounting Pronouncement**

Management adopted new accounting guidance GASB Statement No. 84, *Fiduciary Activities*. GASB No. 84 establishes criteria for identifying fiduciary activities of all state and local governments. This statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. See Note 16 for the restatement of beginning fund balance.

### **Cash and Deposits**

Cash and cash equivalents consist of demand deposits, money market accounts, savings accounts, and certificates of deposit. Deposits are stated at cost which approximates market. The District's cash and deposits are authorized in Illinois Compiled Statutes 30 ILCS 235 under the Public Funds Investment Act.

## Note 1 <u>Summary of Significant Accounting Policies (continued)</u>

### **Budgets and Budgetary Accounting**

The budget for all Government Funds is prepared on the modified cash basis of accounting which is the same basis that is used in financial reporting. This allows for comparability between budget and actual amounts. This is an acceptable method in accordance with Chapter 105, 15/17-1 of the Illinois Compiled Statutes. The budget was adopted on September 23, 2020. A budget is not prepared for the Agency Funds.

For each fund, total fund expenditures disbursed may not legally exceed the budgeted amounts. The budget lapses at the end of each fiscal year. All encumbrances lapse at the end of the fiscal year. The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- Prior to July 1, the Superintendent submits to the Board of Education a proposed operating budget for the fiscal year. The operating budget includes proposed expenditures and the means of financing them. It is prepared on the regulatory basis of accounting which is the same basis that is used in financial reporting.
- A public hearing is conducted at a public meeting to obtain taxpayer comments.
- Prior to October 1, the budget is legally adopted through passage of a resolution.
- The Board of Education is authorized to transfer up to 10% of the total budget between line items within any fund; however, any revisions that alter the total disbursements of any fund must be approved by the Board of Education after a public hearing.
- Formal budgetary integration is employed as a management control device during the year for the Educational fund, Operations and Maintenance fund, Debt Services fund, Transportation fund, IMRF/Social Security fund, Capital Projects fund, Working Cash fund, Tort Fund, and the Fire Prevention and Safety fund.
- Budgeted amounts presented are those as originally adopted, or as amended by the Board of Education. Individual amendments were not material in relation to the original appropriations which were amended. For each fund, total fund expenditures disbursed may not legally exceed the budgeted amounts. Unexpended budgeted amounts lapse at the end of each year.

#### **Property Taxes**

The District's property tax is levied each year on all taxable real property located in the District on or before the last Tuesday in December. The 2019 levy and 2020 levy were passed by the board on December 18, 2019 and December 16, 2020, respectively. Property taxes attach as an enforceable lien on property as of January 1 and are generally payable in two installments in June and September. The District receives significant distributions of tax receipts within approximately one month after these due dates. Property tax revenue relates to collections from the 2019 levy plus an early distribution from the 2020 tax levy.

## Note 1 Summary of Significant Accounting Policies (continued)

#### **Estimates**

The preparation of financial statements in certain situations requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## **Fixed Assets and Long-Term Liabilities**

The accounting and reporting treatment applied to fixed assets and long-term liabilities associated with a fund are determined by its measurement focus. Purchases of fixed asset property and equipment are recorded as disbursements of the various funds. The District has not maintained detailed records reflecting its investment in general fixed assets at historical costs as required by generally accepted accounting principles. Supplementary records have been maintained, however, based on the Guideline for Fixed Assets Accounting in Local School Systems, issued by the Illinois Office of Education, which reflect summary information and are presented in this report. For purposes of the Illinois School District Annual Financial Report (AFR), the District is recognizing straight line depreciation on its' fixed assets over 5-50 years for purposes of the per capita tuition calculation. The amount of depreciation reported on the AFR for the fiscal year ended June 30, 2021 was \$641,905.

Long-term liabilities expected to be financed from any of the funds, except Working Cash and Student Activity Funds, are accounted for in the General Long-Term Debt Account Group, not in the funds themselves. Proceeds from sales of bonds are included as another financing source in the appropriate fund on the date received. Related bond principal payable in the future is recorded at the same time in the General Long-Term Debt Account Group.

The account groups are not "funds". They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations.

#### **Fund Balance**

Reservations of fund balance represent amounts that are not appropriable or are legally segregated for a specific purpose. When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, the District first applies restricted resources.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF) and additions to/deductions from TRS's and IMRF's fiduciary net position have been determined on the same basis as they are reported by TRS and IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# Note 2 Stewardship, Compliance and Accountability

# Other Post-Employment ("OPEB")

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB expense, information about the fiduciary net position of the Teachers' Health Insurance Security Fund ("THISF") and additions to/deductions from THISF's fiduciary net position have been determined on the same basis as they are reported by THISF. For this purpose, OPEB payments (including refunds of employee contributions) are recognized when due and payable in accordance with the OPEB terms. Investments are reported at fair value.

# Excess of expenditures over appropriations

As of June 30, 2021, there were no funds with expenditures exceeding appropriations.

# **Deficit Fund Equity**

As of June 30, 2021, there were no funds with a deficit fund balance.

#### Note 3 Cash and Deposits

**Deposits.** At year-end, the carrying amount of the District's deposits in checking and high yield checking with a bank balance of \$13,091,317. Of the bank balance, the entire balance was insured and collateralized with securities in the District's name. Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits might not be recovered. As of June 30, 2021, the District has no custodial credit risk.

#### Note 4 Common Bank Account

Separate bank accounts are not maintained for all District funds; instead, certain funds maintain balances in common checking and money market accounts, with the accounting records being maintained to show the portion of the common account balance attributable to each participating fund.

Occasionally certain funds participating in the common bank accounts will incur overdrafts (deficits) in the account. The overdrafts result from expenditures which have been approved by the School Board. A deficit in one fund restricts the cash available for use by other funds in the same common account.

As of June 30, 2021, there were no deficit balances.

# Note 5 Changes in General Fixed Assets

Below is a summary of the changes in general fixed assets for the year ended June 30, 2021. As mentioned in Note (1), the District has not maintained detailed records reflecting its investment in general fixed assets at historical costs as required by generally accepted accounting principles. Supplementary records have been maintained, however, based on the Guideline for Fixed Assets Accounting in Local School Systems, issued by the Illinois Office of Education, which reflect summary information.

# Note 7 Long Term Debt

# **General Obligation Bonds**

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities, to defease (refinance) outstanding debt and for fire, life, safety issues. The fire prevention and safety/working cash (general obligation bonds) are direct obligations of the District and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follows:

Purpose	Interest Rates	Amount
General Obligation Life Safety Bonds, Series 2013, original issue, \$1,976,540, dated October 4, 2013, require serial retirement of principal on December 1 and interest payable on December 1 and June 1 of each year.	4.20% - 4.25%	\$923,500
General Obligation Life Safety Bonds, Series 2016, original issue, \$1,675,000, dated February 3, 2016, requires serial retirement of principal on December 1 and interest payable on December 1 and June 1 of each year.	3.14%	1,208,000
		\$2,131,500

Annual debt service requirements to maturity for general obligation bonds are as follows:

Fiscal Year Ending June 30,	Principal	Interest	Total Annual Debt Service
2022	\$394,220	\$69,363	\$463,583
2022	410,620	53,392	464,012

2026	457,000	7,175	464,175
	\$2,131,500	\$187,984	\$2,319,484

No provision is made in the Statement of Assets, and Liabilities Arising From Cash Transactions for total interest payable over the terms of the bond issues.

# Note 7 Long Term Debt (continued)

During the year ended June 30, 2021, the following changes occurred in long-term liability accounts:

	Beginning Balance	Increase	Decrease	Ending Balance	Amounts Due Within One Year
General Obligation					_
2013 Life Safety	\$1,202,930	\$0	\$279,430	\$923,500	\$293,220
2016 Life Safety	1,308,000	0	100,000	1,208,000	101,000
					_
	\$2,510,930	\$0	\$379,430	\$2,131,500	\$394,220

#### **Operating Leases**

The District leases various copiers and buses under operating leases expiring at various dates through fiscal year 2024. Total operating lease expense in was \$287,560 for the current year. Future minimum rental commitments are as follows:

Year ending June 30,	
2022	\$258,033
2023	256,770
2024	256,770
	\$771,573

Lease payments are being made by the Educational, Operations & Maintenance, and Transportation funds.

#### Note 8 Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets: errors and omissions; injuries to employees; and natural disasters, all of which is satisfactorily insured by general liability, property, and worker's compensation insurance. During the year ended, there were no significant reductions in coverage. Also, there have been no settlement amounts which have exceeded insurance coverage in the past three years.

The District is insured under a retrospectively-rated policy for workers' compensation coverage. Whereas, the initial premium may be adjusted based on actual experience. Adjustments in premiums are recorded when paid or received. During the year ended, there were no significant adjustments in premiums based on actual experience.

#### Note 9 Fund Balance Reporting

According to Government Accounting Standards, fund balances are to be classified into five major classifications; Nonspendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance. The Regulatory Model, followed by the District, only reports Reserved and Unreserved Fund Balances. Below are definitions of the how these balances are reported.

# **Nonspendable Fund Balance**

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts. Due to the regulatory basis nature of the District, all such items are expensed at the time of purchase, so there is nothing to report for this classification.

#### **Restricted Fund Balance**

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Things such as restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories –

# **Special Education**

Revenues received and the related expenditures disbursed of this restricted tax levy are accounted for in the Educational Fund. Expenditures disbursed exceeded revenue received for this purpose, resulting in no restricted fund balance.

#### **State Grants**

Proceeds from state grants and the related expenditures have been included in the Educational, Transportation, and Municipal Retirement/Social Security Funds. At June 30, 2021, expenditures disbursed exceeded revenue received from state grants, resulting in no restricted balances.

#### **Federal Grants**

Proceeds from federal grants and the related expenditures have been included in the Educational, Transportation, and Municipal Retirement/Social Security Funds. At June 30, 2021, expenditures disbursed exceeded revenue received from federal grants, resulting in no restricted balances.

#### **Social Security**

Expenditures disbursed, and the related revenues received of this restricted tax levy are accounted for in the Municipal Retirement/Social Security Fund. Revenue received exceeded expenditures disbursed for this purpose, resulting in a restricted fund balance \$447,458. This balance is included in the financial statements as Reserved in the Municipal Retirement/Social Security Fund.

# Note 9 Fund Balance Reporting (continued)

# **Leasing Levy**

Revenues received and the related expenditures disbursed of this restricted tax levy are accounted for in the Educational Fund. Revenues received exceed expenditures disbursed for this purpose, resulting in a restricted balance of \$18,552.

#### **School Facility Occupation Tax Proceeds**

Revenues received and the related expenditures disbursed of this restricted tax levy are accounted for in the Capital Projects Fund. At June 30, 2021, revenues received exceeded expenditures disbursed from school facility occupation tax proceeds, resulting in a restricted balance of \$18,097.

# **Student Activity**

Revenues received and the related expenditures disbursed of these student activities that are controlled by the District are accounted for in the Educational Fund. Revenues received exceed expenditures disbursed for this purpose, resulting in a restricted balance of \$113,768.

# **Committed Fund Balance**

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the School Board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

The School Board commits fund balance by making motions or passing resolutions to adopt policy or to approve contracts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District has no committed fund balances at year end.

# **Assigned Fund Balance**

The assigned fund balance classification refers to amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent may be expressed by (a) the School Board itself or (b) the finance committee or by the Superintendent when the School Board has delegated the authority to assign amounts to be used for specific purposes. The District has assigned balances at year end in the Working Cash Funds.

# **Unassigned Fund Balance**

The unassigned fund balance classification is the residual classification for amounts in the General Operating Funds for amounts that have not been restricted, committed, or assigned to specific purposes within the General Funds. Unassigned Fund Balance amounts are shown in the financial statements as Unreserved Fund Balances in the Educational Funds.

# Note 9 Fund Balance Reporting (continued)

#### **Regulatory – Fund Balance Definitions**

Reserved Fund Balances are those balances that are reserved for a specified purpose, other than the regular purpose of any given fund. Unreserved Fund Balances are all balances that are not reserved for a specific purpose other than the specified purpose of a fund.

# **Reconciliation of Fund Balance Reporting**

The first two columns of the following table represent Fund Balance Reporting according to generally accepted accounting principles. The last two columns represent Fund Balance Reporting under the regulatory basis of accounting utilized in preparation of the financial statements.

	Generally Accepted Accounting Principles		Regulat	ory Basis	
Fund	Restricted	Assigned	Unassigned	Financial Statements- Reserved	Financial Statements- Unreserved
Educational	\$132,320	\$0	\$6,371,169	\$132,320	\$6,371,169

Fire Protection & Safety	543,003	0	0	0	543,003

# **Expenditures of Fund Balance**

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

#### Note 10 Pension and Retirement Systems

The school district participates in two retirement systems: The Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. In accordance with the regulatory reporting, amounts are reported in this note for disclosure purposes only.

#### **Teachers' Retirement System of the State of Illinois**

**Plan description** - The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan with a special funding situation with the State of Illinois that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the District of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

# Teachers' Retirement System of the State of Illinois (continued)

TRS issues a publicly available financial report that can be obtained at <a href="https://www.trsil.org/financial/cafrs/fy2020">https://www.trsil.org/financial/cafrs/fy2020</a>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling 888-678-3675, option 2.

**Benefits provided** - TRS provides retirement, disability, and death benefits. Tier 1 members have TRS or reciprocal system service prior to January 1, 2011. Tier 1 members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier 2 are identical to those of Tier 1. Death benefits are payable under a formula that is different from Tier 1.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

**Contributions** - The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2020, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

# Teachers' Retirement System of the State of Illinois (continued)

On behalf contributions to TRS. The state of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2021, state of Illinois contributions recognized by the employer were based on the state's proportionate share of the collective NPL associated with the employer, and the employer recognized revenue and expenditures of \$3,666,497 in pension contributions from the state of Illinois.

**2.2 formula contributions.** Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2021, were \$25,332 and are deferred because they were paid after the June 30, 2020 measurement date.

**Federal and special trust fund contributions.** When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018. Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2021, the employer pension contribution was 10.41 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2021, salaries totaling \$21,081 were paid from federal and special trust funds that required employer contributions of \$2,194. These contributions are deferred because they were paid after the June 30, 2020 measurement date.

**Employer retirement cost contributions.** Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2021, the employer paid \$0 to TRS for employer contributions due on salary increases in excess of 6 percent and \$0 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2020, the employer had a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The state's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the employer were as follows:

Employer's proportionate share of the net pension liability	\$439,539
State's proportionate share of the net pension liability associated with the employer	34,426,987
Total	\$34,866,526

# **Teachers' Retirement System of the State of Illinois (continued)**

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 and rolled forward to June 30, 2020. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2020, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2020, the employer's proportion was .000510 percent, which was a decrease of .000008 percent from its proportion measured as of June 30, 2019.

Due to the District preparing its financial statements on the regulatory basis, pension liabilities and deferred inflows and outflows referred to throughout this note disclosure are not recognized in the actual financial statements.

For the year ended June 30, 2021, the employer recognized pension expense of \$420,612 along with offsetting revenue and expense of \$3,666,497 for support provided by the state. At June 30, 2021, the employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources, which are not reported due to the regulatory basis of accounting:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$4,260	\$117
Net difference between projected and actual earnings on pension plan investments	13,124	0
Changes of assumptions Changes in proportion and differences between employer	1,801	4,612
contributions and proportionate share of contributions	0	349,585
Employer contributions subsequent to the measurement date	27,527	0
Total	\$46,712	\$354,314

The District reported \$27,527 as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	Net Deferred Inflows of Resource	
2022	(\$239,104)	
2023	(75,007)	
2024	(22,096)	
2025 2026	1,578 (501)

# Teachers' Retirement System of the State of Illinois (continued)

**Actuarial assumptions** - The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

**Inflation** 2.50 percent

Salary increases varies by amount of service credit

**Investment rate of return** 7.00 percent, net of pension plan investment expense, including inflation

In the June 30, 2020 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully generational basis using projection table MP-2017. In June 30, 2019 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully generational basis using projection table MP-2014.

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table.

Acces Class	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
U.S. equities large cap	16.5%	6.1%
U.S. equities small/mid-cap	2.3	7.2
International equities developed	12.2	7.0
Emerging market equities	3.0	9.4
U.S. bonds core	7.0	2.2
U.S. bonds high yield	2.5	4.1
International debt developed	3.1	1.5
Emerging international debt	3.2	4.5
Real estate	16.0	5.7
Private debt	5.2	6.3
Hedge funds	10.0	4.3
Private equity	15.0	10.5
Infrastructure	4.0	6.2
Total	100%	

**Discount rate** - At June 30, 2020, the discount rate used to measure the total pension liability was 7.0 percent, which was the same as the June 30, 2019 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily required rates.

# Teachers' Retirement System of the State of Illinois (continued)

Based on those assumptions, TRS's fiduciary net position at June 30, 2020 was not projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier 1's liability is partially funded by Tier 2 members, as the Tier 2-member contribution is higher than the cost of Tier 2 benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. Despite the subsidy, all projected future payments were not covered, so a slightly lower long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate - The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current rate.

	1% Decrease (6.0%)	Current Discount Rate (7.0%)	1% Increase (8.0%)
Employer's proportionate share of the net pension liability	\$533,520	\$439,539	\$362,165

**TRS fiduciary net position** - Detailed information about the TRS's fiduciary net position as of June 30, 2020 is available in the separately issued TRS *Comprehensive Annual Financial Report*.

#### **Illinois Municipal Retirement Fund**

**Plan description** – The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension retirement fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

**Benefits provided** - IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

# **Illinois Municipal Retirement Fund (continued)**

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired **on or after** January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

**Employees Covered by the Benefit Terms -** At the December 31, 2020 valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	77
Inactive employees entitled to but not yet receiving benefits	57
Active employees	61
Total	195

**Contributions** - As set by statute, the employer's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer's annual contribution rate for calendar year 2020 was 10.06%. For the fiscal year ended June 30, 2021, the employer contributed \$157,439 to the plan. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

**Net Pension Liability** - The employer's Net Pension Liability was measured as of December 31, 2020, and the total pension liability used to calculate the Net Pension Liability was determined by an annual actuarial valuation as of that date.

**Actuarial assumptions –** The following are the methods and assumptions used to determine total pension liability at December 31, 2020:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.25%.
- **Salary Increases** were expected to be 2.85% to 13.75%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.25%.
- **Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation according to an experience study from year 2017 to 2019.
- Mortality For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvement projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.
- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2020:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	37%	5.00%
International Equity	18%	6.00%
Fixed Income	28%	1.30%
Real Estate	9%	6.20%
Alternative Investments	7%	2.85-6.95%
Cash Equivalents	1%	0.70%

100%

# **Illinois Municipal Retirement Fund (continued)**

# **Single Discount Rate**

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.00%, and the resulting single discount rate is 7.25%.

Due to the District preparing its financial statements on the basis of the financial reporting provisions of the Illinois State Board of Education, pension liabilities and deferred inflows and outflows referred to throughout the note disclosure are not recognized in the actual financial statements.

# Note 11 Post-Employment Benefits

#### **Teacher Health Insurance Security (THIS) Fund**

Plan description —The Teacher Health Insurance Security Fund (THISF) (also known as The Teacher Retirement Insurance Program, "TRIP") is a non-appropriated trust fund held outside the State Treasury, with the State Treasurer as custodian. Additions deposited into the Trust are for the sole purpose of providing the health benefits to retirees, as established under the plan, and associated administrative costs. TRIP is a cost-sharing multiple-employer defined benefit post-employment healthcare plan with a special funding situation that covers retired employees of participating school districts throughout the State of Illinois, excluding the Chicago Public School System. TRIP health coverage includes provisions for medical, prescription, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits. Annuitants may participate in the State administered Preferred Provider Organization plan or choose from several managed care options. TRIP is administered in accordance with the State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) which establishes the eligibility and benefit provisions of the plan.

Based upon the required criteria, the TRIP has no component units and is not a component unit of any other entity. However, because the TRIP is not legally separate from the State of Illinois, the financial statements of the TRIP are included in the financial statements of the State of Illinois as a pension (and other employee benefit) trust fund. The audit report is available on the office of the Auditor General website at <a href="https://www.auditor.illinois.gov">www.auditor.illinois.gov</a>. which includes the financial statements of the Department of Central Management Services. Questions regarding the financial statements can be addressed to the Department of Central Management Services at 401 South Spring, Springfield, Illinois 62706. A copy of the actuarial valuation report will be made available by the Commission on Government Forecasting and Accountability on its website at <a href="http://cgfa.ilga.gov/">http://cgfa.ilga.gov/</a>.

**Benefits provided** - The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

# **Teacher Health Insurance Security (THIS) Fund (continued)**

Contributions - The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) requires that all active contributors of the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.24% of salary and for every employer of a teach to contribute an amount equal to .92% of each teacher's salary. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THISF, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - At June 30, 2021, the employer reported a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for state OPEB support provided to the employer. The state's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the employer were as follows:

District's proportionate share of the net OPEB liability	\$4,523,450
State's proportionate share of the net OPEB liability associated with the employer	6,128,043
Total	\$10,651,493

The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2019 and rolled forward to June 30, 2020. The District's proportion of the net OPEB liability was based on the District's share of contributions to THISF for the measurement year ended June 30, 2020, relative to the contributions of all participating THISF employers and the state during that period. At June 30, 2020, the District's proportion was 0.0169190 percent, which was an increase of 0.0004710 from its proportion measured as of June 30, 2019. Due to the District preparing its financial statements on the regulatory basis, OPEB liabilities and deferred inflows and outflows referred to throughout this note disclosure are not recognized in the actual financial statements.

# **Teacher Health Insurance Security (THIS) Fund (continued)**

For the year ended June 30, 2021, the District recognized OPEB expense of \$40,182. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources, related to OPEB, which are not reported due to the regulatory basis of accounting, from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience Net difference between projected and actual earnings	\$0	\$120,183
on OPEB plan investments	0	129
Changes of assumptions	1,532	746,137
Changes in proportion and differences between employer contributions and proportionate share of contributions Employer contributions subsequent to the measurement date	370,187	119,979
	40,182	0
Total	\$411,901	\$986,428

The District reported \$40,182 as deferred outflows of resources related to OPEB resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the reporting year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows, which are not recorded due to the modified cash basis/regulatory basis of accounting:

Year ended June 30:	Net Deferred Inflows of Resources
2022	(\$73,795)
2023	(73,795)
2024	(73,795)
2025	(73,795)
2026	(73,795)
Thereafter	(245,734)
Total	(\$614,709)

**Actuarial Assumptions -** The total OPEB liability was determined by an actuarial valuation as of June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement date, unless otherwise specified:

Inflation 2.50%

Salary increases Depends on service and ranges from 9.50%

at less than 1 year of service to 4.00% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption.

Investment rate of return 0%, net of OPEB plan investment expense,

including inflation

Healthcare cost trend rates Actual trend used for fiscal year 2020. For

fiscal years on and after 2021, trend starts at 8.25% and 8.25% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.25%. There is no additional trend rate adjustment due to the repeal of the Excise

Tax.

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-2014 Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 Whited Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2017.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since TRIP is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 3.13% as of June 30, 2019, and 2.45% as of June 30, 2020.

# **Teacher Health Insurance Security (THIS) Fund (continued)**

**Sensitivity of Net OPEB Liability to Changes in the Single Discount Rate** - The following presents the plan's net OPEB liability, calculated using a Single Discount Rate of 2.45%, as well as what the plan's net OPEB liability would be if it were calculated using a Single Discount rate that is one percentage point higher (3.45%) or lower (1.45%) than the current rate:

Sensitivity of Net OPEB Liability as of June 30, 2020

	to the Single Discount Rate Assumption  Current Single  Discount		
	1% Decrease (1.45%)	Rate Assumption (2.45%)	1% Increase (3.45%)
Net OPEB liability	\$5,436,546	\$4,523,450	\$3,800,048

**Sensitivity of Net OPEB Liability to Changes in the Healthcare Cost Trend Rate -**The following presents the plan's net OPEB liability, calculated using the healthcare cost trend rates of well as what the plan's net OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point higher or lower, than the current healthcare cost trend rates. The key trend rates are 8.25% in 2021 decreasing to an ultimate trend rate of 4.25% in 2037.

Sensitivity of Net OPEB Liability as of June 30, 2020 to the Healthcare Cost Trend Rate Assumption			
	Healthcare Cost Trend  19/ Decrease (a) Retect Assumption 19/ Increase (b)		
	1% Decrease (a)	Rates Assumption	1% Increase (b)
Net OPEB liability	\$3,638,232	\$4,523,450	\$5,720,098

- (a) One percentage point decrease in healthcare trend rates are 7.25% in 2021 decreasing to an ultimate trend rate of 3.25% in 2037.
- (b) One percentage point increase in healthcare trend rates are 9.25% in 2021 decreasing to an ultimate trend rate of 5.25% in 2037.

#### Note 12 Sick and Vacation Pay

The District follows the policy of allowing unused sick days to accumulate to a maximum of 360 days. However, if the employee does not use the accumulated sick days, the benefit is lost upon any termination of employment other than retirement. If an employee enrolled in IMRF and TRS should retire with accumulated sick days, the number of days accumulated is added to their years of credited service in determining their retirement benefit. Unused vacation days are not allowed to accumulate.

As a result, no accrued liability for accumulated unpaid vacation or sick pay has been reflected in the financial statements.

#### Note 13 Commitments and Contingencies

The District is not currently involved in litigation that, in the District's opinion will have a material adverse effect on the financial condition of the District. The District has received funding from state and federal grants in the current and prior years which are subject to audits by the granting agencies. The District believes any adjustments that may arise from these audits will be insignificant to district operations.

# Note 14 Interfund Transactions

There were no interfund transactions or interfund receivables/payables for the year ending June 30, 2021.

# Note 15 Impact of Pending Standards

GASB Statement No. 87, Leases, improves accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The District has not determined the effect of this Statement.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, provides more relevant information about capital assets and the cost of borrowing for a reporting period. This Statement's objectives are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. The District has not determined the effect of this Statement.

GASB Statement No. 91, *Conduit Debt Obligations*, clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by the issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. The District has not determined the effect of this Statement.

GASB Statement No. 92, *Omnibus 2020*, improves the consistency of several practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The District has not determined the effect of this Statement.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, amends certain hedge accounting from GASB Statement No. 53 and variable lease payments in accordance with GASB Statement No. 87. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The District has not determined the effect of this Statement.

# Note 15 Impact of Pending Standards (continued)

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, provides more guidance for accounting and financial reporting for availability payments arrangements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022. The District has not determined the effect of this Statement.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITA), defines a SBITA, establishes a right-to-use subscription asset and liability, provides the capitalization criteria for outlays other than subscription payments, and requires note disclosures regarding a SBITA. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022. The District has not determined the effect of this Statement.

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, amends GASB Statements Nos. 14 and 84, and a suppression of GASB Statement No.32, provides more guidance for determining whether a primary government is financially accountable for a potential component unit, when the financial burden criterion in paragraph 7 of GASB Statement No. 84 applies, and this statement clarifies that GASB Statement No. 84 should applied to all arrangements organized under IRC Section 457 to determine whether those arrangements should be reported as fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged if GASB Statement No. 84 has been implemented. The District has not determined the effect of this Statement.

#### Note 16 Restatement

As a result of the implementation of GASB Statement No. 84 for student activity fund balances, net fiscal year 2020 balances were restated as follows:

	Educational Fund
Balance at July 1, 2020 add: Prior year student activity fund balances	\$5,900,917 116,888
Balance at July 1, 2020, as restated	\$6,017,805

#### **Current Year Payment on Contracts For Indirect Cost Rate Computation**

Please do not remove and reinsert this tab from the workbook or paste into this tab. The AFR will be returned to the auditor if this tab is completed incorrectly.

This schedule is to calculate the amount allowed on contracts obligated by the school district for the Indirect Cost Rate calculation. The contracts should be only for purchase services and not for salary contracts. Do not include contracts for Capital Outlay (500) or Non-Capitalized Equipment (700) on this schedule. They are excluded from the Indirect Cost Rate calculation.

#### To determine the applicable contracts for this schedule, they must meet ALL three qualifications below:

- 1. The contract must be coded to one of the combinations listed on the icon below called "Fund-Function-Object Chart"
- 2. The contract must meet the qualifications on the icons below: the "Indirect Cost Plan" (Page 12 & 13 Sub-agreement for Services) and the "Subaward & Subcontract Guidance"
- 3. Only list contracts that were paid over \$25,000 for the fiscal year.
  - 1. Double click icon to the right for a list of Fund-Function-Objects to use below

Column (E) and (F) are calculated automatically based on the information provided in Columns (A through D).

The amount in column (E) is the amount allowed on each contract in the Indirect Cost Rate calculation. The amount in column (F) is the amount that will be deducted from the base in the indirect cost rate (page 30) for Program Year 2023.

# West Central Community Unit School District No. 235 Compliance Report

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Education West Central Community Unit School District No. 235 Biggsville, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the West Central Community Unit School District No. 235, Illinois (the "District") which comprise the Statement of Assets and Liabilities Arising from Cash Transactions as of June 30, 2021, and the related Statement of Revenues Received, Expenditures Disbursed, Other Sources (Uses) and Changes in Fund Balance, the Statement of Revenues Received, and the Statement of Expenditures Disbursed-budget to actual for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 13, 2021. Our report contains an adverse opinion on the financial statements because the financial statements are presented on the basis of the financial reporting provisions of the Illinois State Board of Education, which is a basis of accounting other than accounting principles generally accepted in the United States, to meet the requirements of the Illinois State Board of Education. Our report also contains a qualified opinion on the regulatory basis of accounting as we were unable to obtain sufficient appropriate audit evidence about the carrying amount of the District's capital assets and related investment in general fixed assets on the regulatory basis as of June 30, 2021 because management has not maintained detailed records to support the historical costs.

# **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as item 2021-001 that we consider to be a significant deficiency.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Governmental Auditing Standards*.

# **Responses to Findings**

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and responses. The District's response was not subjected to the auditing procedures applied in the audit of the financial statement and, accordingly, we express no opinion on it.

# **Purpose of this Report**

Wiffle LLP

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# West Central Community Unit School District No. 235

Schedule of Findings and Responses

# Finding 2021-001:

<u>Criteria</u> – Management is responsible for establishing and maintaining internal controls and for the fair presentation of the financial statements including the related disclosures, in conformity with the financial reporting provisions of the Illinois State Board of Education.

<u>Condition</u> – The District does not have an internal control policy in place over annual financial reporting that would enable management to prepare its annual financial statements and ensure related footnote disclosures are complete and presented in accordance with the financial reporting provisions of the Illinois State Board of Education.

<u>Effects or Potential Effects</u> – The completeness of the financial statement disclosures and the accuracy of the overall financial presentation is negatively impacted as external auditors do not have the same comprehensive understanding of the District as its internal financial staff.

<u>Auditor's Recommendation</u> – Management should continue to review and approve the annual financial statements and the related footnote disclosure.

<u>View of responsible officials and planned corrective actions</u> – The District will continue to review the financial statements and required footnotes prepared by the external auditor. The District believes this process to be most economical and appropriate to help ensure complete and proper financial reporting.
