

Downloading axisReader to an Android Device

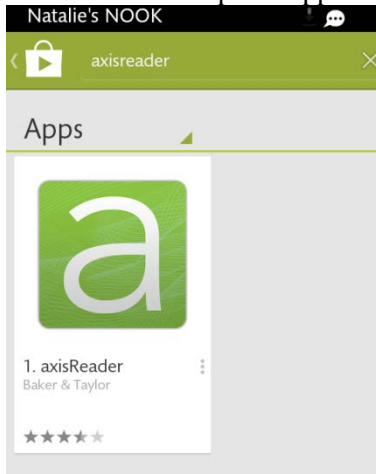

1. Tap the Apps button on the bottom of your homescreen, and then locate the Google Play Store.

2. Click the Search icon to open the Search bar, then type in Axis Reader and click Search.

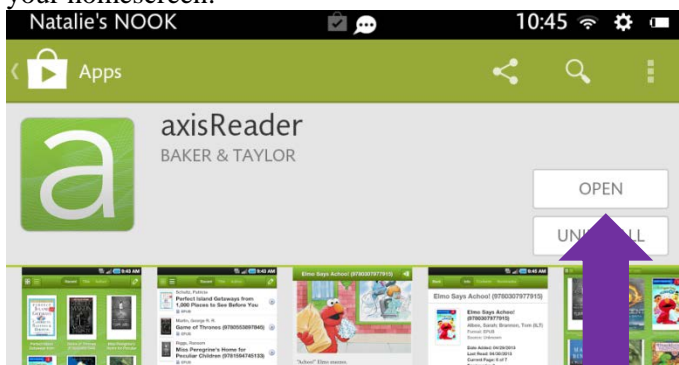

3. The axisReader app will be a green square with a white "a" in it. Tap this app to open an info screen.

4. On the info screen, tap the Install button. A small window will pop up, click Accept.

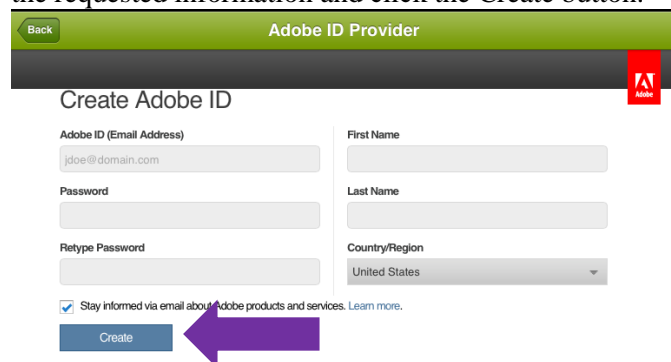

5. Once the app is finished downloading, click Open. From now on, you can find the app under the Apps tab on your homescreen.

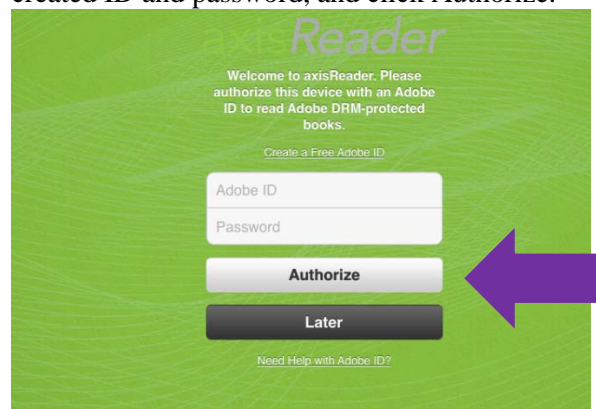

6. Tap this icon to open axisReader and authorize it with an Adobe ID and password. If you already have an Adobe ID and password, enter that and click Authorize. If you need an ID and password, click the Create Adobe ID link.

7. To create an Adobe ID and password, just complete the requested information and click the Create button.

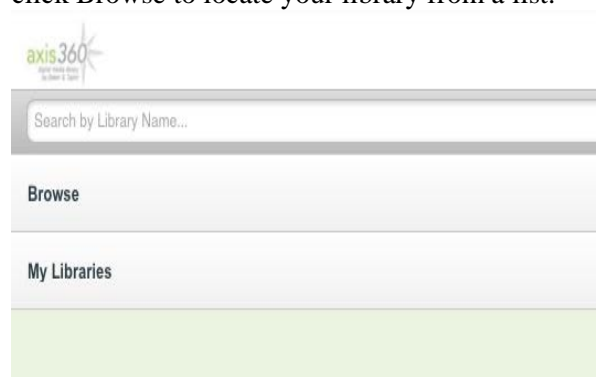

8. Then you'll return to axisReader, enter your newly created ID and password, and click Authorize.

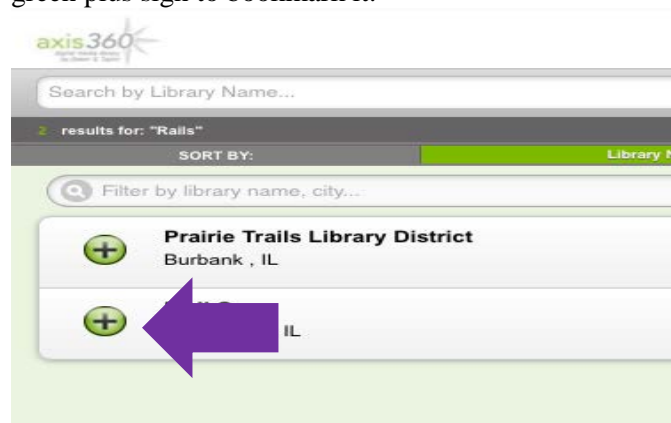

9. Once you have authorized Adobe, you are ready to visit your library's page and check out books! Click the Find a Library button to locate your library's Magic Wall.

10. You can type your library into the Search bar or click Browse to locate your library from a list.

11. Once you've located your library, you can tap the green plus sign to bookmark it.

12. Now that you've bookmarked your library, it will show up immediately when you tap the Find a Library button. Tap the name of your library to enter the Magic Wall.

Congratulations! You're reading to start exploring the collection and checking out items. Happy reading!
